COMPUTER INFORMATION SYSTEMS & ANALYTICS

Dedicated and detail-oriented Computer Information Systems student graduating in May 2024 with a solid academic foundation and a passion for solving complex problems. Seeking an entry-level position to apply theoretical knowledge gained through coursework and hands-on projects.

PROJECTS

Inventory Management System

Developed a database-driven inventory management system for a small business, optimizing tracking and management of stock levels. Utilized SQL for database design and management.

E-commerce Website

Led a team project to create a fully functional e-commerce website, integrating front-end development using HTML, CSS, and JavaScript with back-end functionalities. Implemented secure payment gateways and user authentication.

Network Configuration Project

Designed and implemented a secure network configuration for a simulated business environment, addressing key networking principles and security measures. Used tools like Cisco Packet Tracer for network analysis.

SKILLS

Programming Languages: Java, Python
Database Management: SQL
Web Development: HTML, CSS, JavaScript

Network Administration: TCP/IP, DNS, DHCP
Systems Analysis and Design
Information Security Basics

EDUCATION

University of Central Arkansas, UCA

Bachelor of Business Administration
Computer Information Systems & Analytics
